

## **RACHEL ROSEKIND, PhD, MLIS**

**Educator | Editor | Consultant | Communications Strategist | Researcher | Coach | Admissions Advisor**

---

I foster personal, social, and systemic change through education, advocacy, amplification, collaboration, and direct service. I work across silos and sectors to fuse intermingled issues and bring awareness to their intersectionality. At root, my life has revolved around advancing racial and economic Justice, transformative social movements, and community belonging. Its branches have served to amplify underrepresented voices in print and in public and to elevate marginalized individuals to positions of power and underserved communities to the centers of social and political concern. I promote equity and abundance agendas to expand the multiplicity of voices in institutional spaces, civic forums, print culture, and individual consciousness. Please reach out if you see opportunities where I can be impactful in these domains or add volume and value to your efforts. I am always looking for new and more ways to contribute and collaborate, to be engaged and to engage others.

This resume enumerates some of my positions, affiliations, and responsibilities, past and present. It includes some of the compensated positions I have held; through summarization, they provide a sketch rather than the specifics. Like most stories, the one presented in this resume is marked as much by omission as it is by inclusion. If you were able to read between the lines, you would see that most of my work lies behind the scenes and that many of my contributions have been/are inherently supportive in nature —driven by passion and purpose rather than pursuit of wealth or status. Because I've been doing this work for several decades, the arc is wide and deep, and omission represents the necessity of consolidation and the limitations of memory. Many of my contributions are either short-term, targeted entry/spot-check, or long-haul, none of which bear enumeration on a compact resume that is by its very nature selective and summative. Some of my pro bono work is reflected in the current service roles and affiliations I list; much of it is not.
